

# mega banners

DATASHEET

## megabanners

enables your visual to make extreme impact, with unequalled display possibilities - the TELESCOPIC structure on all four sides allows you to present varying size banners within its frame - the LARGEST size being 1900mmW x 2400mmH, but beware this size does NOT fit in rooms with standard ceiling height (if this is a limitation choose 2200mmH version) change and display different size graphics using the same megabanna system - silver tubular frame, single or double side graphics
